Update to the United States Tariff Surcharges

Due to recent U.S. tariff increases on most countries, Ashcroft has updated surcharges on certain products. There will be no surcharges on some products including Duragauge®, ASME Bimetals, RTD's, Thermocouples, Thermowells, S1 Transducers and 8008S Gauges.

These new surcharges will be applied against new orders entered beginning Thursday August 14th and will be itemized line by line on each invoice. Orders entered prior to August 14th will be invoiced based on the surcharge in effect at the time of entry.

These surcharges will offset a portion of the tariffs. We will continue to monitor the situation and communicate accordingly.

Products listed below do not have a surcharge or are subject to a higher level. All products and parts not listed will have a **4%** surcharge. Changes to the May 15th letter are referenced in **red**.

Jim Baldwin
VP/GM – North America

**ALL ASHCROFT, HEISE & WEKSLER INSTRUMENTS AND PARTS WILL BE SUBJECTED TO A 4% SURCHARGE
WITH THE FOLLOWING EXCEPTIONS:**

Pressure Gauges	Surcharge %	Pressure Switches	Surcharge%
All Duragauges®	0%	A Series	7%
