

International Tools Inc.

August 8th, 2025

Dear Customer,

The recently well documented tariff increases have put a strain many businesses around the world, with direct increases in tariffs being felt by companies up and down the country.

At International Tools Inc., we delayed any price increases whilst trade negotiations were ongoing, in order not to implement unnecessary price increases. Unfortunately, we are unable to continue to do so.

The majority of products we import to distribute in the United States of America originate from the EU, China, Taiwan and the United Kingdom. All these regions have seen increases in tariffs rates applied on imports.

The recent announcement of trade agreements between the US and EU, as well as the US and UK has led to a permanent increase of tariffs which we are unable to absorb.

Details of upcoming price increases will be communicated to you. If you have any questions or queries, please reach out to a member of the team.

Best Regards,

Jeff Cobb
VP National Sales
