

Dear Valued Business Partner,

At Megger, we are committed to enabling our distributor network and supply chain partners to continue leveraging the strength of the Megger brand. Our shared objective is to ensure the long-term financial sustainability of our mutual business, support ongoing market expansion, and fund future investments in innovation and product development.

In accordance with your distribution agreement, we are providing advance notice that a global price list update will take effect from October 1st, 2025. The increase will apply to specific product lines or families and will typically be in the range of 3-5%.

These adjustments are in line with the inflationary pressures we are experiencing across our cost base, including raw materials, logistics, and manufacturing. Each product category is being reviewed with care to ensure a balanced approach that considers both its market positioning and associated cost impacts.

We aim to provide further product-specific details during the first week of September. We appreciate your continued partnership and support as part of the Megger community.

If you have any questions or require further clarification, please do not hesitate to contact your local Megger Account Manager.
